

Spazzole tergicristallo per autocarri

Qualità di primo impianto di origine **Valeo**

Spazzole tergicristallo di altissima qualità dal profilo innovativo, realizzate con **gomma idrofobica**.

Assicurano una miglior pulizia del parabrezza ed evitano la deformazione della lama nei periodi d'inutilizzo.

L'impiego della **gomma idrofobica** impedisce inoltre che le spazzole tergicristallo si appiccichino al parabrezza a causa di temperature ambientali elevate, di gelo o di impieghi sporadici.

Accelera inoltre l'eliminazione dell'acqua specialmente in posizione verticale.

L'**innovativo profilo** dei gommini combinato con la gomma idrofobica limita l'usura, facilita l'eliminazione della polvere, delle foglie ecc. e consente una distribuzione più omogenea della pressione sul parabrezza.

Prontuario applicativo spazzole
